IT Strategic Planning - Framework

Process

- Multiple advisory committees
- FABIT
- Interviews with researchers
- Question of the week
- On-campus conference
- Draft for review, Feb. 7, 2013

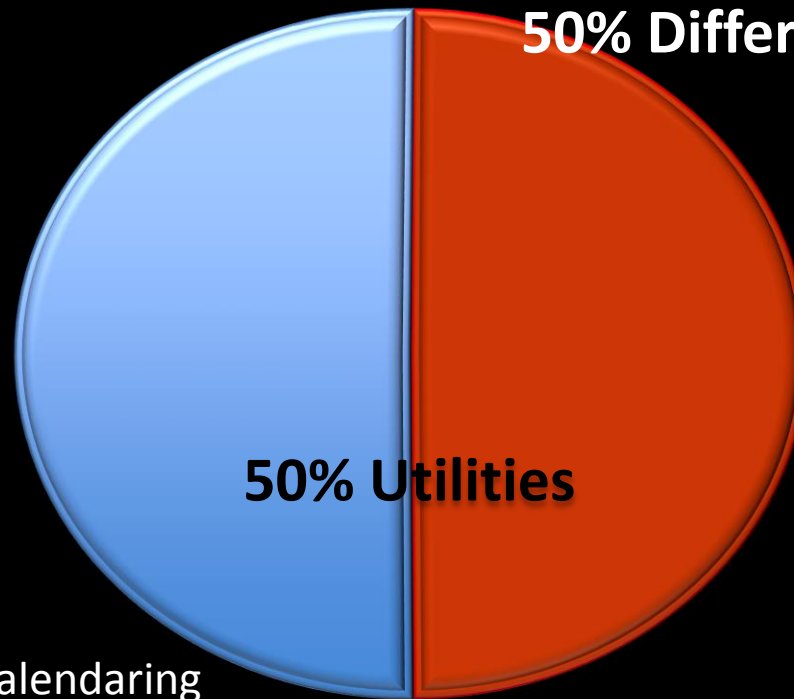

Today, IT Expenditures Look Like This

- Academic technologies
- Analytics
- Research computing
- Mobility

- Messaging/calendaring
- Most administrative systems
- Voice and most data networking
- Desktop support

Imagine a More Equal Balance

- Academic technologies
- Analytics
- Research computing
- Mobility

- Messaging/calendaring
- Most administrative systems
- Voice and most data networking
- Desktop support

Some Themes

- IT@Cornell services should be built to serve our community.
We must listen to and work closely with our community.
- Stronger collaboration – center/local and local/local – will make us more effective and build a better IT@Cornell.
- Services should align with recognized standards such as accessibility, quality, and usability.

Next Steps

- Trustees
- Set priorities
- Report on progress
- Communicate
- Communicate
- Communicate...

IT@Cornell

Thanks for Listening

Questions...?
