

**Alan Zehnder, Mechanical & Aerospace Engineering**

Alan Zehnder joined the Cornell faculty in 1988. He has been a visiting professor at the California Institute of Technology, a senior faculty fellow at the Naval Surface Warfare Center, and a guest professor at the Vienna University of Technology. At Cornell he has served as Chair of Theoretical and Applied Mechanics, Interim Director of Mechanical and Aerospace Engineering and currently serves as Associate Dean for Diversity and Faculty Development in the College of Engineering. His research is in the mechanics of materials and fracture, particularly in dynamic and thermo-mechanically coupled problems. He earned his B.S. in 1982 at the University of California at Berkeley and received his Ph.D. in mechanical engineering from the California Institute of Technology in 1987.
