

S1: Overview

Current Spring Calendar →

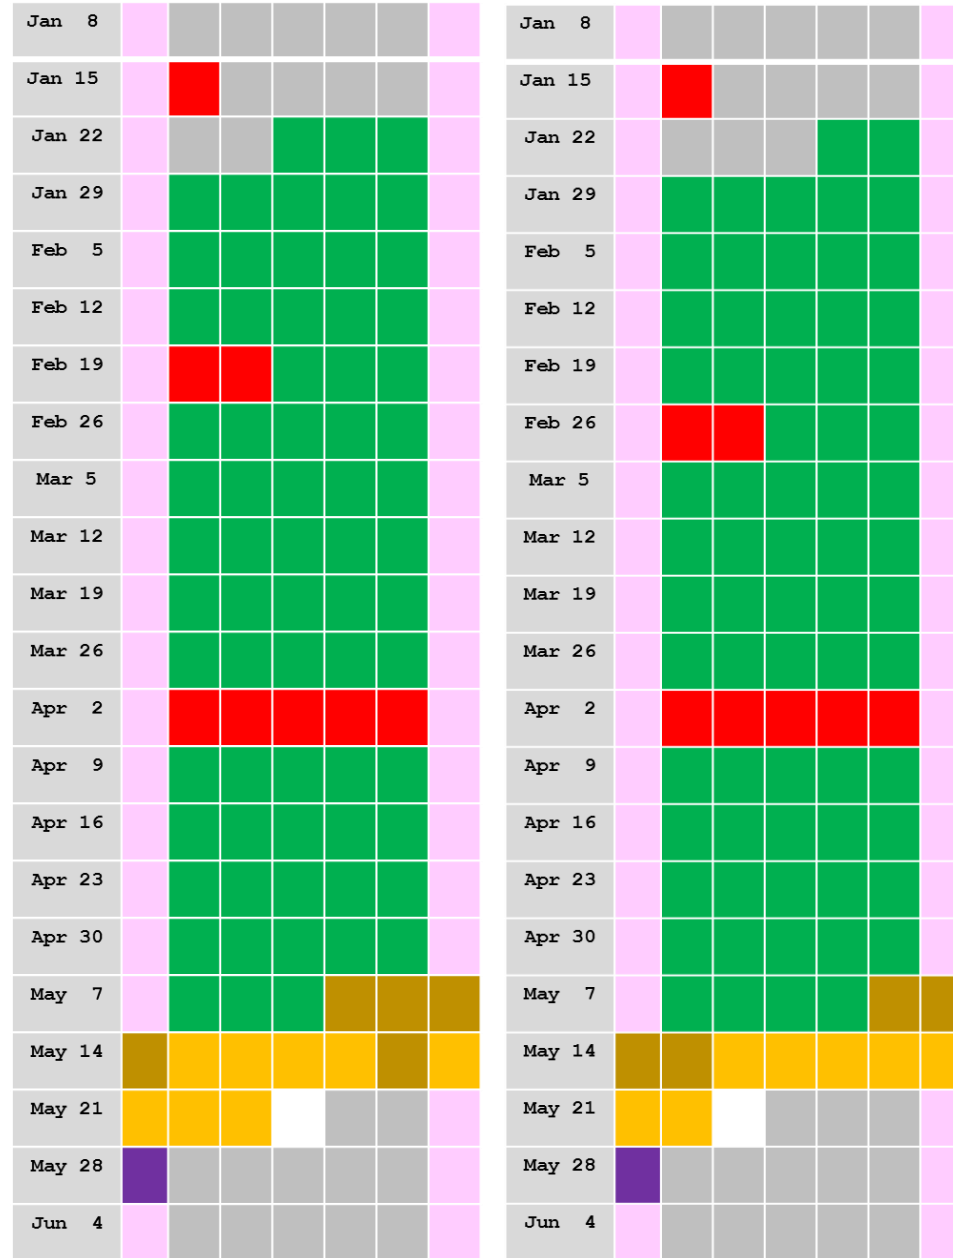

First Class Day:
Earliest: Jan 21
Latest: Jan 27

Last Exam Day:
Earliest: May 19
Latest: May 25

The S1 Motivators

1. The February break is too early.
2. It is important to have two breaks.
3. Too little time to prepare dorms for graduation.
4. The study/exam period is long compared to our peers

Illustrated for 2017

← Spring Calendar S1

First Class Day:
Earliest: Jan 22
Latest: Jan 28

Last Exam Day:
Earliest: May 20
Latest: May 26

The S1 Framework

1. Delay the February break by one week even though it creates two childcare days.
2. Live with an unusually placed spring break compared to other schools.
3. Reduce the study/exam period from 13 to 11 days. (The 4+7 distribution is shown.)
4. It is OK to add one "Senior day" and to start one day later.

Variation: Same as S1 but with a Wednesday start in January and a 12-day study/exam period.

 Move-In/Out Day

S1: Details

Discussion

This spring calendar is a “minimal change” spring calendar. It simply delays the February break. With that move it is not possible to move spring break, which many feel comes too late. There is a question about the prelim cycle and the new positioning of the February break.

What Follows

There are 14 possible “versions” of S1 to consider. That is because there are 7 possible MLK dates and 2 kinds of years (non-leap years and leap years).

A full-year calendar that involves S3 requires pairing with F1, F2, or F3. We look at F1+S1, F2+S1, and F3+S1.

Calendar Metrics Used in Subsequent Slides

CD: Class Days

CD = 69 means that there are 69 class days.

WW: Whole Weeks

WW = 12 means that there are 12 weeks with Monday through Friday classdays.

WB: Weekday Balance

WB = (14,14,13,14,14) means that among class days there are 14 Mondays, 14 Tuesdays, 13 Wednesdays, 14 Thursdays and 14 Fridays.

CDS: Class Day Streaks

CDS = 18-2-28-5-23 means that there are class day streaks of 18, 2, 28, 5, and 23 that are separated by a 2-day break and a 5-day break.

CCD: Child Care Days

CCD = 10(2) means that there are approximately 10 Cornell class days that are NOT ICSD class days and 2 Cornell class days that are NOT ICSD elementary school half-days. Based on 2016-17 ICSD calendar.

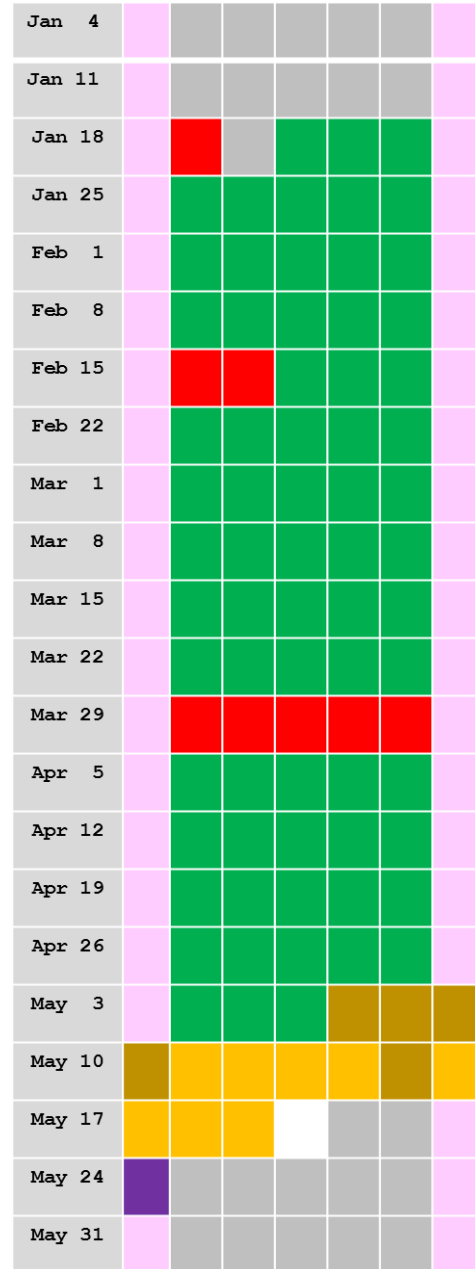

NYS: New York State's Class Day Count

NYS = 76 means that the sum of class days and exam days is 76. The required minimum is 75.
