### The S3 Motivators

1. The February and Spring break are not well-positioned.
2. Having a 2-break spring is important.
3. The study/exam period is long compared to our peers.
4. The between-semester break is long compared to our peers.
5. The summer break is too short.
6. Commencement on Memorial Day weekend is late.

## ← Spring Calendar S3

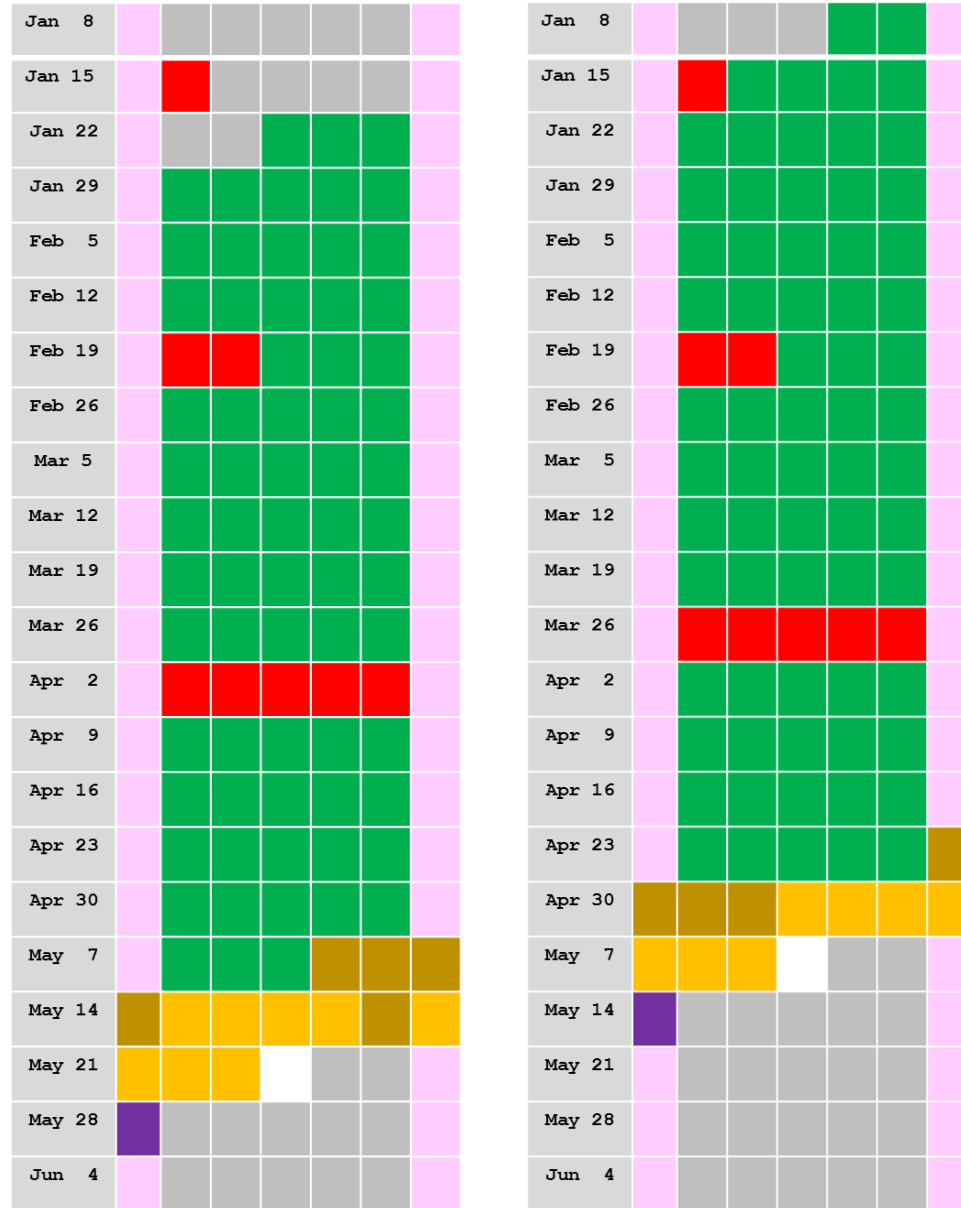

**First Class Day:**  
**Earliest:** Jan 8  
**Latest:** Jan 14

**Last Exam Day:**  
**Earliest:** May 8  
**Latest:** May 14

### The S3 Framework

1. Move the last 8 class days into January.
2. Reposition the spring break.
3. Stage Commencement two weeks before Memorial Day weekend.
4. Reduce the study/exam period from 13 to 11 days. (The 4+7 distribution is shown.)

Variation: Enable a 12-day exam period by moving the last class day to January.

# S3: Details

## Discussion

Will the faculty accept the 2-week earlier start?  
The short break remains on President's Day weekend.

## What Follows

There are 14 possible "versions" of S3 to consider. That is because there are 7 possible MLK dates and 2 kinds of years (non-leap years and leap years).

A full-year calendar that involves S3 requires pairing with F1, F2, or F3. We look at F1+S3, F2+S3, and F3+S3.
