

Dr. Julia Finkelstein is the Follett Sesquicentennial Faculty Fellow and Assistant Professor of Epidemiology and Nutrition in the Division of Nutritional Sciences, Cornell University. She is also an adjunct Associate Professor at St. John's Research Institute in Bangalore, India. She received her Bachelor of Science degree from McGill University, Master of Public Health degree from Brown University, and Master of Science and Doctor of Science degrees in Epidemiology and Nutritional Epidemiology from Harvard University.

Dr. Finkelstein is an epidemiologist with expertise in the design and conduct of randomized clinical trials, cohort studies, and surveillance programs in resource-limited settings. The goal of the Finkelstein Laboratory is to elucidate the role of vitamin B12 in the etiology of anemia and adverse pregnancy outcomes, and inform the development of interventions to improve the health of mothers and young children.
