

Conor's notes from the 11/16 WG-C meeting.

- BCTR
 - Human Ecology program – only 30 students
 - Anti-Racism Center can similarly facilitate student participation in faculty's/graduate students' anti-racist projects
 - Putting students directly to work with NYS community programs (4-H, etc) that have ongoing relationships w/ Cornell
- 626 Thurston – Multicultural Student Leadership and Empowerment program
 - One staff member advising five multicultural student organizations, assisting them in managing Cornell as an institution to achieve their organizational goals – putting together events, managing their Student Assembly provided budgets flowing from Appropriations through ALANA, acting as a source of institutional memory, etc.
- LGBTQ Resource Center
 - Integrated with student organizations on campus, staff members as resources to assist student orgs to put together inter-collegiate/local/regional events/colloquia, navigate campus bureaucracy/budget similar to 626
- Engaged Learning & Research
 - Certificate program in Anti-Racism/Anti-Racist Leadership similar to ELR's Certificate in Community-Engaged Leadership
 - Intra-center skills building programming and outward-facing student-led facilitation of community anti-racist work.
 - Believe there's barebones staff in charge and the rest is progressive student leadership. Participants one year become student ambassadors the next, doing heavy lifting of certificate program.
- Public Service Center
 - Federal Work Study placements in community organizations in Ithaca area, across New York.
 - Anti-Racism center could assist in directing students to anti-racist community organizations, leveraging the federal work study program and its funds.
